PERSONAL PROFILE

I am an enthusiastic undergraduate pursuing a Higher National Diploma in Information Technology (HNDIT) with a strong foundation in both technical and creative skills. I am passionate about learning new technologies. My goal is contribute meaningfully to dynamic terms by leveraging my problem-solving mindset and diverse skill set.

KEY SKILLS

- Basic Programming Knowledge (Java, JavaScript, PHP)
- Familiar with computer systems, databases and software tools
- Strong analytical thinking and Problem solving skills
- Quick learner, adaptable and open to new technologies
- Good attention to detail and ability to work independently

PRACTICAL EXPERIENCE

Clothing Material Shop Website(Individual Project-MERN Stack)

- Developed a full-stack e-commerce site with product filtering, shopping cart, and admin dashboard.

Food Shopping Cart Website (Individual Project – PHP & MySQL)

- Created a dynamic food ordering website with product listing, cart functionality, and database integration.

Pet Shop Management System (Group Project)

- Built a desktop app for managing inventory, billing, and customers using C# and SQL Server.

2D Animation Cartoon Video (Individual Project)

- Created a short animated cartoon video with custom characters and scenes using Animaker Software tool.
